## **HEALTH AND SAFETY ADVISOR - BGP MARINE, CHINA - 2014 to 2015 (Contract)**

- Developed documentation and statements of work for Ocean Bottom Node (OBN) survey
- Established health and safety procedures and processes to ensure the company's and their employees, both on and offshore, complied with international standards and best practices (add a measurable deliverable such as resulting in reduced incidents)
- Made improvements in operational and support functions resulting in reductions in Health and Safety risks.

## **HEALTH AND SAFETY Client Representative – RPS - 2013 to Present (Contract)**

- Provided advice and consultation to all crew members and departments to assist in maintaining a safe working environment in compliance with HEALTH AND SAFETY regulations, standards and practices.
- Identified operational safety measures required for BP offshore seismic projects in Angola and Azerbaijan and ensured all crew members were well advised thus reducing the overall accident rate.
- Delivered HEALTH AND SAFETY training to ensure that all crew members maintained training under the International Conventions including Safety of Life at Sea, International Convention for the Prevention of Pollution from Ships and International Safety Management Code
- Provided management reports, statistics and safety performance reports against agreed targets and standards to regional stakeholders and management team.

## **Senior Training Instructor – Rigmarine - 2012 – 2013**

- Reviewed, revised and launched company's HEALTH AND SAFETY training programme, including the development of more than 35 modules, in accordance with oil industry standards.
- Initiated and successfully led the process of NEBOSH and IOSH accreditation.
- Trained and evaluated trainers and trainees and provided hands-on management of all training staff and graduates resulting in 100% retention of staff and significant skill and competency growth.
- Presented and rolled out 3-month training programme on Production and Process Awareness to over 500 employees across 6 facilities for BP Azerbaijan.

## **SAFETY ADVISOR - RXT NORWAY - 2008 – 2012**

- Spearheaded all aspects of HEALTH AND SAFETY ensuring all personnel adhered to Marine Safety Standards through planning, implementation, training, technical support, analysis of Health and Safety records and supervision.
- Improved overall safety through development of a safety management system and introducing Health & Safety training to NEBOSH General Certification level.
- Developed and enhanced support policies, auditing processes, inventory systems and management information reporting, providing not only cost savings but also 100% reporting accuracy.
- Responsible for Health and Safety for company shipyards

## **Other Roles**

- **Medical Services Manager ISOS 2004-2008**
- **Offshore Medic Safety– 1996 – Present**
- **Staff Sargent Royal Army Medical Services. – 1972 - 1996**
